

**Appendix A: Needs Analysis**

Actual Performance	Needs assessment shows that many teachers on staff do not use data projectors during instruction. When teachers do use data projection, they need assistance setting up the projector. This may be the reason why United Streaming files are not being used enough.
Optimal Performance	Each classroom teacher will use data projector for at least one lesson each quarter. Teachers will not be afraid to use data projectors in instruction.
Needs	Teachers need to feel comfortable with connecting and using a data projector with a desktop or laptop computer.
Solutions	Train teachers on the ways to connect a data projector to a computer.  Provide more data projectors to be used in classroom instruction.
Training Goals	To help teachers successfully execute connecting a data projector and a computer. Teachers will be able to use data projection without technical assistance.
