Letter of Recommendation - Nicholaos Syrpis

August 14, 2014

Dear Sir/Madam,

Nick worked for our non-profit, Lumina Academy, for a period of time beginning in October of 2012. He was, at that time, a full-time student at UNCW.

I found Nick to be a responsible young man, with excellent technology skills, who enthusiastically threw himself into the work we needed him to do. He thought beyond his job requirements, seeking to find ways to do more to support the work we were doing. He was flexible, a good learner and creative problem solver, and was open to constructive criticism.

He showed intellectual curiosity and openness to new information, as well as an interest in, and concern for, others. A strong sense of ethics was evident in his work and interactions with others.

I would highly recommend he be given any support possible as he follows the path of his chosen profession.

Sincerely,

A handwritten signature in black ink, appearing to read 'Betsy J. Parker', followed by a long horizontal line extending to the right.

Betsy J. Parker,  
Project Manager  
Lumina Academy
