

July 4, 2014

Mr. Syrpis has shown to have strong determination to achieve whatever he is feels called to accomplish. While a part of our congregation in Kalamazoo, MI, Nick helped motivate a number of people to improve their Modern Greek in a class, which he offered. He did this while attending college full time and working.

Nick came prepared for his courses, and his students quickly showed improvement in their reading and writing skills. Nick's strengths include a good understanding of learning theory and applying what one learns into real world interactions. His ability to think things through is outstanding. He can evaluate well, tapping into resources while coping with life's challenges.

I endorse him in his future endeavors, wishing great success as he serves God and people via his many talents. Nick can be a great asset to any organization. His work ethic and dedication will speak for themselves.

Sincerely,

*fr. Angelo Pepps*
