

Demonstrate proper suctioning of tracheostomy

I. Completion of prerequisite learning?

A. tracheostomy module 1

1. complete module 1

B. pre-hire test

- 1. complete pre-hire test**

II. Familiar with web browsing?

- A. complete tutorial**

III. Demonstrate conditions requiring suction

- A. identify plugged tube**
- B. identify Infection**
- C. identify reduced airflow**

IV. Demonstrate goals of proper tracheotomy suctioning

- A. identify proper airflow**
- B. identify maintaining sterility**

V. Demonstrate proper method for suctioning

- A. demonstrate sequence of steps**
- B. demonstrate steps**
 - 1. demonstrate patient prep**
 - 2. demonstrate equipment setup**
 - 3. demonstrate catheter insertion**
 - 4. demonstrate suctioning**
 - 5. demonstrate catheter removal**
 - 6. demonstrate observation of proper airflow**
 - 7. demonstrate clean up and disposal**

VI. Identify equipment and supplies needed for tracheostomy

- A. identify supplies needed**
 - 1. demonstrate proper handling of supplies**
- B. identify equipment needed**
 - 1. demonstrate operation of equipment**
 - a. identify equipment controls**
 - b. identify equipment settings**
