

MIT 515 – Project Evaluation Tool

Thank you for agreeing to review my project.

Please log on to the website by clicking on the following links:

1. <http://vistaserver.ncsu.edu>
2. UNC OP
3. Log In
4. Username: fran_guest
5. Password: uncw12
6. List of classes will display in the middle, click on:

MIT 515 Student Course Shells Spring 07
515 Frances Strauss

7. That should open the class.
8. To the best of my knowledge, your username and password should allow your multiple accesses so that you do not have to go through the entire class in one sitting.
9. I am mainly looking for the following:
 - You can easily navigate the class.
 - All links open properly and easily.
 - You understand what to do and where to go if you were a student.
 - You understand where to go for information and questions.
10. All comments are greatly appreciated. I have been looking at this class for months and I am grateful for other sets of eyes.
11. Let me know if you have questions.

Please read the following statements and check the appropriate box to the right. Any comments are appreciated. Thank you for your time.

		Agree	Slightly Agree	Neutral	Disagree
1	The course was well organized; easy to follow and navigate.	x			
2	The course content was accurately presented.	x			
3	The course was creative; appropriately designed for the target audience	x			
4	All readings, job aides, and links loaded properly	x			
5	Instructions were clear.	x			
6	Due dates are clearly spelled out.	x			
7	Weekly requirements are easy to understand.	x			
8	Resources are helpful to learning.	x			
9	The syllabus is easy to read and expectations are clear.	x			
10	I can easily find where to post my weekly discussions.	x			
11	Instructions easily direct me to information on how to contact my instructor.	x			
12	Instructions easily direct me to information on how to contact my classmates and areas to work with group members for our weekly assignments.	x			
13	Instructions were clear for accessing and completing the testing components.	x			

Comments:

Module 1 – Readings – “If fact” should be “In fact”

Cathy King, RN
NHRMC

Repaired.

Comments:

I looked through the module, I think it looks pretty good actually. I like the design. I took one of the tests (made 100 by the way :)) and I liked it very much. The only comment is that perhaps some instructions on how to navigate through the module be provided at the beginning. I did find one broken link, the Oregon Health one.

Billy Graham, RN
NHRMC

Comments:

Hi Fran! I like your online class. Pretty easy to maneuver. Very easy to understand. However, I took the healthy lungs test and when I tried to do the 2nd pursed lip breathing test it says I've already attempted a test and I can only have one try....?

Cheryl Barton, CRT
NHRMC

Dr. J,

I found the "reset" button, thank you. I have set the test time limitations on my syllabus. I did not however, set any limitations in the Assessment properties of WebCt, since it was a practice class.
